---

Results are based on telephone interviews conducted June 11-13, 2010 with a random sample of 1,014 adults, aged 18+, living in the continental U.S., selected using random-digit dial sampling.

For results based on the total sample of national adults, one can say with 95% confidence that the margin of error is ±4 percentage points.

For results based on the sample of 515 national adults in Form A and 499 national adults in Form B, the maximum margins of sampling error are ±5 percentage points.

For results based on the sample of 926 registered
